

LASANTHA WIJEWARDHANA

SOFTWARE ENGINEERING INTERN | AI & MACHINE LEARNING ENTHUSIAST

Wellawaya, Sri Lanka | lasanthakumara738@gmail.com | +94 783013682 | [Linked In](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated computing professional seeking a Software Engineering Internship to apply skills in software development, programming, databases, and problem solving. Hands-on experience developing full-stack and backend applications using Java, Python, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL through academic and personal projects. Familiar with REST APIs, Git, GitHub, Docker, Linux, AWS, Agile, Scrum, and software development practices including testing and debugging. Currently pursuing a BSc (Hons) in Applied Computer Science while building knowledge in Artificial Intelligence, Machine Learning, and automation. Eager to contribute to an Agile team while continuing to grow as a Software Engineer.

PROFESSIONAL EXPERIENCE

Administrator **2023 - 2024**

Complete Management Consultancy, Sri Lanka

- Managed client and recruitment records, maintained databases and administrative documentation, coordinated candidate communication, and provided basic IT support by troubleshooting computers, software, printers, and network-related issues.

EDUCATION

- Higher Diploma (HD) in Computing and Software Engineering** **2024 - 2026**
ICBT CAMPUS
- BSc (Hons) Applied Computer Science (Top Up)** **2026 - Present**
CINEC CAMPUS

CORE COMPETENCIES & SKILLS

- Programming Languages:** Java, Python, JavaScript, C++, PHP, Bash, C#
- Full-Stack Development:** React.js, Node.js, Express.js, REST APIs, HTML, CSS, MVC Architecture
- Databases:** MySQL, MongoDB, Firebase, Database Design, SQL
- Software Engineering:** Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, Debugging, Problem Solving, Authentication (JWT), Agile, Scrum, Unit Testing
- DevOps & Cloud:** Docker, Linux, Git, GitHub, AWS, CI/CD, Containerization
- Development Tools:** VS Code, Visual Studio, Android Studio, Postman, Jira
- Emerging Technologies:** Artificial Intelligence, Machine Learning, Automation

PROJECTS

ConvoGPT – Full-Stack AI Chatbot ([GitHub](#))

MongoDB, Express.js, React.js, Node.js, OpenAI API, Docker, ImageKit

- Built a full-stack AI chatbot with user authentication, real-time messaging, AI text generation, image generation, and credit-based usage management.
- Containerized the frontend and backend using Docker for consistent development and deployment.

Employee Management System – Full-Stack Web Application ([GitHub](#))

React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, Inngest

- Developed a role-based employee management system with JWT authentication, RESTful APIs, employee profiles, attendance, leave management, and payslip generation.
- Implemented automation using Inngest to streamline HR operations and reduce processing.

Paw Shop – Pet Shop POS System (Java, OOP, Desktop Application) ([GitHub](#))

- Developed a Java-based POS system with cashier and manager roles for product management, product search, and user account management using object-oriented programming principles.

Luxe Vista Resort – Mobile Application (Java, XML, Android Studio)

- Developed an Android resort management application featuring room booking, service browsing, staff communication, and an interactive gallery using Java and XML.

CERTIFICATIONS

- **AWS Cloud Technical Essentials** | Amazon Web Services | Nov 2025
- **Docker Training Course for the Absolute Beginner** | KodeKloud | Jun 2025
- **Introduction to DevOps and Site Reliability Engineering** | The Linux Foundation | May 2025
- **Operating Systems and You: Becoming a Power User** | Google | Feb 2025

LANGUAGES

- English - Professional Proficiency
- Sinhala - Native
