Vishwa Wijesekare

Colombo, Sri Lanka

PROFILE

A versatile Web-Based Software Developer with strong expertise in Flutter, React, Laravel and NestJS. Driven by a deep passion for software development and a commitment to continuous learning, excels in collaborative environments and is eager to contribute to innovative projects. With a strong technical foundation and a problem-solving mindset, aims to apply expertise in web development to create impactful solutions while further advancing skills and knowledge in the field.

EDUCATION

BSc. Hons. in Computing & Information Systems

Sabaragamuwa University of Sri Lanka

CGPA: 3.56

G.C.E. Advanced Level (2020)

St. Thomas' College

Physical Science Stream

WORK EXPERIENCE

Full-Stack Software Engineer Intern - MindsAlpha INC.

Contributed to the end-to-end development, testing, and deployment of web applications using React, Node.js, NestJS, etc, collaborating closely with senior engineers to design and implement new features across the front-end and back-end. Wrote clean, maintainable code and debugged complex issues, such as API integrations, while producing technical documentation to support onboarding and future development. Actively participated in Agile sprint planning, stand-ups, and retrospectives, gaining hands-on exposure to modern development workflows, version control (Git), CI/CD pipelines, and industry best practices for delivering production-ready software.

Associate Software Engineer - GenO3 Pvt. Ltd.

Played a key role in the design, development, and maintenance of scalable software solutions built on .NET, Python, etc., contributing across the full software development lifecycle from requirements gathering to deployment. Implemented new features and optimized application performance, while identifying and resolving critical bugs to ensure system reliability. Worked cross-functionally with product, QA, and design teams in a fast-paced Agile environment, leveraging modern frameworks and tools to deliver robust, well-tested software aligned with best engineering practices.

PROJECTS

Nature Win Yala (Group)

Next.js | Tailwind CSS | Nodemailer | Vercel

A full-stack hospitality website for a safari villa and private cabana near Yala National Park, built with React, Tailwind CSS, Node.js, and MongoDB. Features a responsive UI showcasing accommodation packages, local experiences, and an interactive gallery, along with an inquiry system for a seamless booking experience. **Contribution:** Designed and developed the full-stack platform end-to-end, building responsive UI components and optimizing performance for a fast, visually engaging user experience.

AgriConnect (Group)

Flutter | Python | Laravel | MySQL | AWS

Designed and implemented a Crop Recommendation Tool using AI algorithms, providing personalized crop suggestions based on location, soil, and climate conditions. Enhanced a Marketplace Platform allowing farmers to list produce, negotiate prices, and connect directly with buyers, eliminating intermediaries and ensuring fair compensation. **Contribution:** I did the front-end development of the project and also presented the product in various competitions and exhibitions.

Arunoda (Group)

Next.js | Firebase | Vercel

Arunoda is a social innovation platform that connects grassroots innovators, small entrepreneurs, and skilled individuals with mentors, investors, and collaborators, helping turn ideas into real impact.

This project contains the web app built using Next.js (App Router), with offline-first capabilities, multimedia storytelling, and bilingual support. **Contribution:** Implemented the front-end using Next.js ensuring a seamless and user-friendly experience for users.

TECHNICAL SKILLS

Programming Languages - JavaScript, Dart, Python, PHP, HTML, CSS, Blade

Frameworks and Libraries - React, Next.js, NestJS, .NET, Tailwind CSS, Flutter, Laravel, Bootstrap

Databases - MySQL, MongoDB, PostgreSQL

Technologies and Tools - GitHub, Figma, AWS, Firebase, Trello, Stripe

OTHER SKILLS

Strong understanding in Data Structures and Algorithms.

Experienced in creating UML diagrams.

Knowledgeable in Object-Oriented Programming (OOP) and Agile methodologies.

Proficient with development tools such as VS Code, PyCharm, and Canva.

Skilled in version control systems, including Git and GitHub.

Excellent communication skills, particularly in English, with proficiency in multiple languages.

EXTRA CURRICULAR ACTIVITIES

TadHack Sri Lanka 2023 - 1st Runner Up (AgriConnect) 

IEEE INSL Sabaragamuwa Province - Champion (Glova) 

DataOdyssey Exhibition - 2nd Runner Up (AgriConnect) 

Brainstorm 24 - Semi-Finalist (Glova)

Editor - Society of Computer Sciences (SOCS) - SUSL

Volunteer - IEEE Student Branch of SUSL

Volunteer - ICARC 2024, 2025, 2026
