PROFESSIONAL SUMMARY

BSc in Information Technology undergraduate (Full Stack Development specialization) at the University of Vavuniya, seeking a Software Engineering Intern / Full Stack Developer role. Experienced in building and deploying full stack web applications using React.js, Node.js, Express.js, MongoDB, Firebase, and Spring Boot. Skilled in RESTful API design, database design, authentication (JWT), and responsive UI development. Proven ability to ship production applications used by hundreds of real users. Strong problem-solving, teamwork, and communication skills with a passion for continuous learning.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C, C++, C#

Frontend: React.js, Next.js, Angular, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, Spring Boot, .NET, Django

Databases: MongoDB, MySQL, PostgreSQL, Firebase

Tools & Platforms: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Figma

Concepts: REST APIs, JWT Authentication, Responsive Design, Database Management, Agile/Teamwork

PROJECTS

Ramadan Meals Management System | *Full Stack Web Application — Deployed & Live*

Technologies: React.js, Tailwind CSS, Firebase, React-Leaflet, jsPDF, Google Apps Script

- Designed, developed, and deployed a full stack meal management system to automate daily Sahur and Ifthar meal ordering for university students.
- Currently serving 350-400+ students daily at the University of Vavuniya, replacing manual WhatsApp-based ordering.
- Implemented time-based ordering, capacity management, authentication, email automation, and PDF report generation.
- Built an interactive logistics dashboard with location mapping for efficient delivery management.

AI-Powered Smart Attendance Management System | *Full Stack + Facial Recognition*

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Face-API.js

- Developed an AI-based attendance system using facial recognition technology.
- Implemented role-based dashboards for Admin, Lecturer, and Student users.
- Designed intelligent timetable validation to prevent scheduling conflicts.
- Built late-attendance handling workflows and biometric verification.

Mobile Shop E-Commerce Website | *MERN Stack*

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Multer

- Developed a full stack e-commerce platform for mobile devices and accessories.
- Implemented product search, shopping cart management, inventory tracking, and authentication.
- Designed a modern responsive UI with glassmorphism styling and dark mode support.

University Result Management System

Technologies: React.js, Tailwind CSS, Spring Boot, MySQL, JWT, BCrypt

- Built a full stack academic result management application.
- Implemented student result viewing, CGPA calculation, PDF downloads, and admin CRUD operations.
- Developed secure authentication using JWT and role-based access control.

Personal Portfolio Website

Technologies: React.js, Tailwind CSS, JavaScript

- Designed and developed a responsive portfolio website to showcase software projects and technical skills.

Snake Game (Python)

Technologies: Python, Pygame

- Developed an interactive Snake Game with collision detection, scoring system, and high-score management.

EDUCATION

Bachelor of Science in Information Technology (BSc IT) | *University of Vavuniya, Sri Lanka*

09/2023 - 06/2026 (Expected)

G.C.E. Advanced Level - Technology Stream | *Puttalam Zahira National College*

08/2019 - 02/2022

CERTIFICATIONS

- Python for Beginners - University of Moratuwa (April 2025)
- JavaScript Essentials 1 - Cisco Networking Academy (April 2025)
- JavaScript Essentials 2 - Cisco Networking Academy (April 2025)
- IEEEExtreme 17.0 - IEEE (October 2023)
- IEEEExtreme 18.0 - IEEE (October 2024)

ADDITIONAL EXPERIENCE

- Batch Representative for the BSc Information Technology undergraduate batch.
- Experienced in collaborative software development using Git and GitHub.
- Interested in Full Stack Development, Artificial Intelligence, and Cloud Technologies.
