Professional Summary

Results-driven Full-Stack Software Engineer with hands-on internship experience building and deploying scalable web applications across the MERN stack, Spring Boot, and ASP.NET Core. Demonstrated ability to design RESTful APIs, optimize database performance, and implement production-grade CI/CD pipelines using Jenkins, Docker, and AWS EC2. Experienced in Linux-based development environments and Agile workflows. Passionate about writing clean, maintainable code and continuously expanding expertise in cloud infrastructure and DevOps practices.

Work Experience

Software Engineer Intern

ICIEOS (PVT) Ltd.

June 2025 – December 2025

Colombo, Sri Lanka

- Developed and maintained full-stack web applications using MERN stack (MongoDB, Express, React, Node.js), designing scalable RESTful APIs with modular backend architecture and reusable service components.
- Optimized database performance through MongoDB query tuning and indexing strategies to enhance query efficiency and reduce response time.
- Participated in Agile development processes including sprint planning and code reviews; assisted in debugging production issues to improve system reliability.

Software Engineer Intern

SYNAPSE Solution (Pvt) Ltd

December 2024 – March 2025

Colombo, Sri Lanka

- Worked in a Linux (Ubuntu) environment, gaining hands-on experience with system operations, file management, and command-line workflows.
- Developed backend applications using Spring Boot, building RESTful APIs and applying core Java enterprise concepts in a professional setting.

Projects

From Code to Cloud: Complete DevOps Workflow with CI/CD

Full-Stack Project | DevOps & Cloud | Production-Ready Pipeline

May 2026

- Deployed full-stack Node.js + React application to AWS EC2 with fully automated CI/CD pipeline and zero-manual-step deployment workflow.
- Designed 8-stage Jenkins pipeline with GitHub webhooks and multi-platform Docker builds (linux/amd64) for automatic deployment on code push.
- Configured automated infrastructure with zero-downtime deployments and published comprehensive Medium guide on production-grade deployment (Nginx, PM2, HTTPS, Certbot, SSL auto-renewal).
- GitHub: [Full-DevOps-Workflow](#) | Medium: [From Code to Cloud](#)
- Skills: DevOps, CI/CD, Jenkins, Docker, GitHub Webhooks, AWS EC2, Nginx, Certbot, HTTPS, Infrastructure Automation, Production Deployment

Online Shopping System

Web | Microservices Architecture | Spring Boot, React, MySQL

November 2024 – December 2024

- Developed online clothing store with microservices architecture supporting sellers, admins, and customers.
- Implemented secure authentication, order processing workflows, and robust testing (Cypress, Mockito) with Dockerized deployment.
- Technologies: JavaScript, Java, ReactJS, Spring Boot, MySQL, Docker, Git.
- GitHub: [Online-Shopping-Application](#)

- Skills: Full-Stack Development, Microservices, Docker, Spring Boot, React, Testing

Expense Tracker System

September 2023 – June 2024

Web | Financial Management | ASP.NET Core, React, MSSQL

- Built full-stack financial tracking application with income/expense management and role-based authentication.
- Implemented REST APIs using ASP.NET Core with optimized database queries for performance.
- Technologies: JavaScript, C#, React, .NET, MSSQL, Git.
- GitHub: [Expense-Tracker-System](#)
- Skills: Full-Stack Development, MSSQL, ASP.NET Core, React, Authentication

Technical Skills

Programming Languages: Java, C#, Python, PHP, JavaScript, TypeScript, C

Frontend Technologies: React, Angular, HTML, CSS, Vite

Backend Technologies: Spring Boot, ASP.NET Core, Node.js, Express.js, PHP

Mobile Development: Flutter

Databases: MongoDB, MySQL, MSSQL, SQLite, Firebase, Supabase

Caching Technologies: Redis

DevOps & Cloud: Linux, Docker, Jenkins, AWS EC2, Nginx, PM2, Certbot, SSH, HTTPS, GitHub Webhooks, Docker Hub, DuckDNS, ngrok

Tools & Platforms: Git, GitHub, Jira, Visual Studio, VS Code, IntelliJ IDEA, Docker Desktop, ngrok

Education

BSc (Hons) in Information Technology

Expected May 2026

University of Moratuwa | Faculty of Information Technology

- CGPA: 3.4 / 4.0

G.C.E Advanced Level Examination

2020

Physics: B | Combined Mathematics: B | Chemistry: B | Z-score: 1.4392

Certifications

- **Supervised Machine Learning: Regression and Classification** – DeepLearning.AI (2026)
- **Introduction to Generative AI** – Google (2025)
- **Python for Beginners** – University of Moratuwa (2024)

Achievements

- **HackMoral 6.0 Mini Hackathon** – University of Moratuwa (2024)
- **CodeRush Intra Faculty Coding Competition** – 2023
- **CodeRush Intra Faculty Coding Competition** – 2022

Languages

Sinhala: Native | **English:** Fluent | **French:** Intermediate
