Profile Summary

Motivated and detail-oriented third-year Information Technology undergraduate at Sri Lanka Institute of Information Technology (SLIIT) with knowledge of full-stack development, web technologies, and software engineering concepts. Skilled in Java, JavaScript, React.js, Node.js, Spring Boot, and database management using MySQL and MongoDB. Experienced in developing academic projects using the MERN stack and Android development. A quick learner with strong problem-solving abilities, teamwork skills, and a passion for gaining industry experience through an internship opportunity.

Education

- **BSc(Hons) in Information Technology** Jan 2023 - Present
Sri Lanka Institute of Information Technology (SLIIT) – Malabe
- **Advanced Level Examination – 2022**
Commerce Stream in Taxila central College, Horana
- **Ordinary Level Examination – 2019**
Taxila Central College, Horana

Work Experience

- **Full Stack Developer Intern**
Ministry of Public Administration, Provincial Councils and Local Government – Colombo, Sri Lanka

Technical Skills

Programming Languages

- Java
- Python
- JavaScript
- C++

Tools & Platforms

- Git
- GitHub
- Postman
- VS Code

Front-End Technologies

- React.js
- Html
- CSS

Back-End Technologies

- Node.js
- Express.js
- Spring Boot

Databases

- MongoDB
- MySQL

Concepts & Others

- Object-Oriented Programming Concepts(OOP)
- REST APIs
- Authentication & Authorization (Auth0, OAuth 2.0, JWT, MFA)
- Agile Basics
- Performance & Debugging

Certificates

- Certificate in React.js for Beginners – SimpliLearn Platform.
- Certificate in Full Stack Java Development – SimpliLearn Platform.
- Certificate in Web development - SLIIT
- Certificate in English – Britishway English Academy, Kalutara (2023))
- Certificate of Appreciation – Organizing Committee Member, Thambapanni Colombo Night 2025 - Star Gates Events.
- Certificate in MongoDB Data Modeling Path – MongoDB (2026).

My Projects Experience

CareerBridge - Career platform for student (MERN Stack)- Hosted link

- Developed a full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) with REST APIs for career services.
- Implemented Company Jobs features for creating, updating, and managing job postings, plus interview slot scheduling with conflict checks.
- Delivered a responsive, user-friendly interface for students and companies, including profiles, applications, and role-based access.

Fish Farm Management System (2nd Year Group Project)

- Developed a full-stack web application using the MERN Stack (MongoDB, Express.js, React.js, Node.js) with REST APIs to manage fish farm operations.
- Implemented features for employee task management, inventory tracking, and reporting.
- Focused on creating a responsive and user-friendly interface for efficient farm management.

SmartCampus - Campus Operations Platform(React, Spring Boot)

- Built a full-stack SmartCampus platform with React, Spring Boot, and MongoDB Atlas for resource management, booking, ticketing, and secure user access.
- Implemented JWT + Google OAuth2 authentication, role-based authorization, and admin workflows for approvals, assignments, and system control.
- Developed responsive dashboards with analytics and exportable reports to improve operational visibility and user experience.

Sri Travel- Android Mobile Application-(2nd Year Individual Project)

- Developed an Android application using Kotlin and Android Studio
- Implemented search functions and Emoji-based Mood Journal and hydration reminder features.
- Designed an intuitive, user-friendly UI/UX for travelling
- Enabled smooth data input, processing, and user interactions
