JOB EXPERIENCE

Computer Operations Supervisor | QVine Corporation

2016 – Present

- Scheduled and coordinated installing application software, operations software, computer hardware, and physical facilities for the computer center and unit.
- Analyzed the workflow of the unit to ensure cost-effective utilization of computers and computer operations by observing operations and checking production rate.
- Conferred with systems, programming, and operational personnel to coordinate activities and to minimize operational problems.
- Assisted manager with budget preparation by evaluating the staff, supplies, and equipment needs of the center and unit.

Computer Operations Supervisor | Tompkins Trust Company

2014 – 2016

- Answered user questions regarding the status of jobs entered into the computer system and equipment malfunctions.
- Assured that data processing equipment was maintained in good operating condition by scheduling routine maintenance and reviewing service agreements.
- Assisted in determining, developing, revising and implementing policies, procedures, and work standards.
- Evaluated employee performance and prepared performance appraisals.

Computer Operations Supervisor | Radial, Inc

2012 – 2014

- Recommended purchases of computer production equipment to manager.
- Conferred with user departments to determine needs, to plan and develop new applications, and to solve operational problems.
- Provided users special information about processing procedures and job requirements.
- Resolved production scheduling conflicts; maintained records and prepared correspondence and reports.
