SUMMARY

Motivated IT undergraduate specialized in Information System Engineering with strong interest in Business Analyst, Project Management and Enterprise systems. detail-oriented knowledge in Java-based system development, data analysis dashboards, requirements gathering, Process mapping,data-driven decision-making, preparing documentations.Skilled in problem-solving, analytical thinking and decision-making, with a passion for creating innovative IT solutions that improve organizational performance.

EDUCATION

Sri Lanka Institute of Information Technology (May 2023 - Following)

Bachelor of science (Hons) in Information Technology Specialized in Information System Engineering

Fundamental Data Analysis using Power BI - Alison (Year 2025)

Completed this course,Learning data cleaning, visualization, and creating interactive dashboards for basic data insights.

Galahitiyawa Central College

G.C.E Advance Level Examination - Maths Stream (Year 2021)

Chemistry- C Combined Maths - S Physic - S General English - C

G.C.E Oridianry Level Examination - (Year 2017)

8'A 1'C

PROJECTS

- Local Service Finder((MERN Stack, MongoDB)

2026

 - Developed a Local Service Finder System using the MERN Stack (MongoDB, Express.js, React.js, Node.js) to connect customers with local service providers through booking, feedback, and service management features.
 - Implemented secure authentication, role-based dashboards, booking management, feedback handling and service demand forecasting features.
- Employee Management System (Java Swing, MYSQL Server)

2025

 - Developed a Java-based Employee Management System using NetBeans, Integrating and designed system features including payroll automation, QR attendance tracking and task assignment management.
 - Conducted requirements gathering, prototyping and prepared SRS documentation, data flow diagrams, UML models and create wireframes.
- Supply Chain Management System(Java Swing, MYSQL Server)

2024

 - Developed a Java-based Supply chain management system using NetBeans, Involving suppliers, inventory, finance and warehouse management.
 - Designed UML diagrams, ER diagrams, data flow diagrams, create wireframes, documented functional requirements, test scenarios and collaborated in a team-based development.

TECHNICAL SKILLS

Project Tools: MS Office (Word, Excel, PowerPoint), Canva, Draw.io, StarUML, MS Project

Databases: MySQL, SQL server

Programming: C, C++, Java, R, SQL

Web Development: HTML, CSS, PHP, MERN Stack(MongoDB, Express.js, React.js, Node.js)

IDEs / Tools: NetBeans, Eclipse, Visual Studio Code, R Studio, Power BI

ERP System: Odoo

SKILLS

Communication skills

Time Management

Teamwork & Collaboration

Problem-solving & Critical thinking

Documentations Skills

Analytical & Critical Thinking

Requirements Gathering

Decision-making

Creativity and Innovation

ADDITIONAL INFORMATION

Languages: Sinhala, English

Certifications: Completed English & IT course in NENASALA

Fundamental Data Analysis using Power BI - Alison

University of Moratuwa - Python for beginners
