Projects

RMS – Result Management System (Group Project) 🐙 GitHub	Feb 2026 – Present
• Led sprint planning and task tracking for a 5-member team using Jira, ensuring on-time delivery of all milestones across 5+ sprints. • Owned development of 2 core system modules end-to-end — from requirements analysis through implementation, testing, bug fixing, and maintenance. • Collaborated with team members on feature planning, system design discussions, and sprint reviews using Agile development practices. • <i>Tech: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Jira, GitHub</i>	
Smart Paddy – Full-Stack Web Application (Group Project) 🐙 GitHub	Apr 2025 – Dec 2025
• Built React.js frontend interfaces for farmer and buyer workflows, improving usability and reducing navigation steps. • Integrated a live weather API to deliver location-based agricultural updates to users in real time. • Improved UI responsiveness and resolved reported bugs during testing phase, increasing overall reliability. • Collaborated within a 5-member Agile team using GitHub for version control, code integration, and project coordination. • <i>Tech: React.js, Node.js, Express.js, MySQL, Socket.IO, JWT</i>	
SCANMe – AI-Based Body Posture Analysis System (Group Project) 🐙 GitHub	Nov 2025 – Feb 2026
• Implemented posture detection and landmark extraction functionalities using MediaPipe. • Developed image processing components using OpenCV for posture analysis. • Integrated posture analysis results with the Laravel backend for data management and reporting. • Conducted testing and model accuracy evaluation to improve system reliability and performance. • <i>Tech: Python, MediaPipe, OpenCV, Laravel, PHP, MySQL</i>	

To-Do List Application (Individual Project) GitHub

Dec 2025

- Built a task management application supporting task creation, completion, and deletion (CRUD operations).
- Implemented server-side rendering using EJS.
- *Tech: Node.js, Express.js, EJS, Bootstrap*

NatureSoul – Responsive Photo Gallery Website (Individual Project) GitHub

Aug 2025

- Designed and developed a fully responsive photo gallery with animated hero section, smooth scrolling, and hover-effect captions.
- Achieved mobile-first layout compatibility across all screen sizes using Bootstrap 5 grid system.
- *Tech: HTML, CSS, Bootstrap 5*
