SUMMARY

Software Engineering student with hands-on experience building responsive web applications using React.js, Next.js, TypeScript, Tailwind CSS, and Node.js. Experienced in developing client projects through Fiverr and personal full-stack applications. Seeking a Software Engineering or Frontend Developer Internship to apply technical skills, contribute to real-world projects, and continue growing as a software engineer.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, Java

Frontend Technologies: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Vite

Backend Technologies: Node.js, Express.js

Database: MySQL, PostgreSQL, Supabase

Tools: Git, GitHub, Figma, Jira (Basic), VS Code

Soft Skills: Communication Skills, Problem Solving, Quick Learning, Team Collaboration

PROFESSIONAL EXPERIENCE

GrandMaison Hotel & Restaurant Website

June 2026

Tech Stack: React.js, TypeScript, Tailwind CSS, Node.js

- Developed a responsive hotel booking and restaurant management web application using React.js, TypeScript, Tailwind CSS, and Node.js.
- Implemented user authentication, room browsing, online booking, shopping cart, payment integration, and user profile management.
- Built an admin dashboard for managing hotel rooms, bookings, customers, reviews, and contact messages; integrated REST APIs for dynamic data retrieval.
- Optimized performance and responsive layouts across devices; collaborated directly with the client to deliver a production-ready solution on deadline.

HubShoe E-commerce Website - Personal Project

March 2026

Tech Stack: HTML5, CSS3, JavaScript, Node.js, MySQL

- Developed a responsive e-commerce website for an online shoe store with product browsing, cart, checkout, and order management.
- Built backend functionality using Node.js and designed a MySQL database for customer, product, and order data with full CRUD support.

Forge Fitness Tracking Website - Fiverr Client

June 2026

Tech Stack: HTML5, CSS3, JavaScript, Supabase

- Developed a responsive fitness tracking web app with an interactive dashboard for workouts, goals, and progress data.
- Integrated Supabase for real-time database storage and implemented workout logging, goal setting, and progress tracking using JavaScript.

EDUCATION

BEng (Hons) Software Engineering - London Metropolitan University

Jan 2025 - Jan 2026

Focus Areas: Software Development, Web Application Development, Database Systems, Software Engineering, UI/UX Design, Software Testing

Pearson BTEC HND in Software Engineering - ESOF Metro Campus

Jan 2023 - Dec 2024

Focus Areas: Programming, Object-Oriented Programming, Database Management, Web Development, Software Design

Diploma in Information Technology - GatWick College

Mar 2022 - Sep 2022

Focus Areas: Programming Fundamentals, Web Development, Database Systems, IT Fundamentals

CERTIFICATIONS

Web Development Certification, NoviTech R&D PVT LTD - HTML5, CSS3, JavaScript, React.js, Next.js, responsive web design, and modern web development practices.

Flutter Development Certification, Udemy - Cross-platform mobile applications using Flutter and Dart.
