CAREER OBJECTIVE

To secure a Computer Security Specialist position with a successful, well-established organization that will enable me to grow professionally while contributing to the company's goals and objectives.

EXPERIENCE

Computer Security Specialist Patriot LLC

2016 – Present

- Drafted documentation regarding compliance and security standards; ensured compliance with state and federal regulations (e.g., HIPAA, GLBA, SOX, etc.).
- Monitored current reports of computer viruses to determine when to update virus protection systems.
- Reviewed data records and compared user names listed in records with employee authorization to ensure that all employees who accessed data files were entitled to do so.
- Modified computer security files to incorporate new software, correct errors, and change individual access status.
- Directed and participated in recovery and correction initiatives to resolve criminal computing activities.

Computer Security Specialist S & R Resources

2014 – 2016

- Assisted in training other staff in the use of security tools and techniques.
- Entered commands into computer to allow access to the computer system for employees who forgot passwords.
- Analyzed security event data and took prescribed responsive actions, including assisting in computer forensic analysis.
- Gathered and organized technical information about an organization's goals and needs, existing security products, and ongoing programs in the client arena.
- Trained users and promoted security awareness to ensure system security and to improve server and network efficiency.
