PROFILE

Data and Business Analytics professional with hands-on experience transforming complex data into actionable insights, dashboards and business solutions. Skilled in SQL, Power BI, Looker Studio, Python and data visualization, with practical experience in business intelligence, marketing analytics, KPI reporting and operational analysis. Passionate about using data, analytics and AI-driven approaches to solve business problems, improve processes and support data-driven decision-making. Currently working across reservations, sales, marketing and operational analytics while collaborating with stakeholders to deliver meaningful business impact.

● CORE SKILLS

BI & Reporting: Power BI, DAX, Power Query (M), Data Modelling, Looker Studio, Excel (Pivot Tables, VLOOKUP, Power Pivot), Dashboard Design, Data Visualization, MS fabric, data bricks

Data & Databases: SQL, MySQL, MongoDB, ETL, Data Cleaning & Transformation, Statistics

Programming: Python (Pandas, NumPy), R, Java, C++, C, PHP, Kotlin, SQL

Marketing Analytics: Google Ads, Conversion Tracking, GCLID Attribution, ROI / ROAS Analysis, Campaign Analytics, Keyword & Competitor Analysis, Budget Monitoring

AI / ML: Machine Learning, Deep Learning, TensorFlow, Scikit-learn, Jupyter Notebook, LangChain, Hugging Face, Computer Vision

Tools & Platforms: Microsoft 365, SharePoint, Power Platform, GitHub, Flask, AWS

Soft Skills: Stakeholder Communication, Presentation, Critical Thinking, Teamwork, Time Management, Leadership

PROFESSIONAL EXPERIENCE

Associate Business Intelligence Engineer | Less Taxi Pvt Ltd Jan 2026 – Present

Business Intelligence • Data Analytics • Google Ads Analytics • AI Experimentation

Business Intelligence & Data Analytics

- Designed and developed interactive Power BI and Looker Studio dashboards used by management for daily decision-making on reservations, sales, marketing and operational KPIs.
- Built advanced DAX measures, calculated columns and data models in looker studio tranform and analysing inquiries,quotes ,reservations and as well as commissions and revenue
- Wrote complex SQL queries against MySQL databases to extract, join and aggregate large business datasets for reporting, ad-hoc analysis and automated reporting workflows.
- Performed deep-dive analysis on reservations, sales and operational data — identifying customer booking trends, seasonal patterns and performance gaps.
- Monitored core business KPIs and built dashboards that surface operational inefficiencies and growth opportunities in real time.
- Conducted comparative business performance analysis across services and regions to support strategic planning.

Marketing Analytics & Google Ads Management

- Owned end-to-end Google Ads analytics — monitored CPC, CPA, ROAS, conversion rate, GCLID-based attribution and lead quality.
- Analysed keyword performance, search campaign effectiveness and reservation-source attribution to optimise spend and scaling decisions.
- Conducted competitor keyword analysis and audience/geo-targeting reviews to inform digital marketing strategy.
- Built marketing performance dashboards integrating Google Ads conversion data with internal booking data to measure true campaign ROI.
- Supported ad-budget monitoring and identified high-converting keywords, audiences and campaigns for budget reallocation.

AI, Automation & Advanced Analytics

- Explored practical AI use cases for the business and tested AI tools to accelerate reporting and analytics workflows.
- Used Python, Pandas, NumPy and Jupyter Notebook for data preprocessing, statistical analysis and ML-based predictive insights.
- Built automated reporting workflows combining SQL, Power Query and Excel — reducing manual reporting time and improving accuracy.
- Applied data-driven forecasting and analytical thinking to operational and marketing problems.

Reporting & Stakeholder Communication

- Partnered with operations and marketing stakeholders to gather reporting requirements and deliver decision-ready dashboards.
 - Translated complex analytical findings into clear, non-technical insights and presented KPI trends to management.
 - Supported strategic decision-making with business analytics, performance reviews and growth recommendations.
 - As scrum master, Facilitated daily stand-ups and tracked sprint progress and execution.
- I single-handedly ran all growth marketing and cut cost-per-order by 60% while delivering 200%+ revenue growth YoY, expanding into Europe, India, and the US, and turning the business profitable. I grew market share from 0.5% to 3% and tripled quality lead volume — all through data-driven campaign decisions

Business Intelligence Analyst Trainee | Less Taxi Pvt Ltd *Aug 2025 – Jan 2026*

- Supported the BI team in building dashboards and reports using Looker Studio, SQL and Excel for reservations, sales and operational tracking.
- Wrote SQL queries against MySQL databases to extract and transform business data; used Excel (Pivot Tables, VLOOKUP, formulas) for advanced analysis.
- Helped monitor business KPIs and prepare management reports, summaries and visualisations for operational and marketing performance reviews.
- Assisted with Google Ads performance tracking — keyword performance, conversion metrics and campaign ROI — to support marketing optimisation.
- Used Jupyter Notebook with Python and Pandas for data cleaning, exploratory analysis and basic machine-learning experiments.
- Collaborated with stakeholders to understand reporting needs and translated business questions into data queries and dashboards.

Management Trainee — Finance Department | Kerry Logistics *Jun 2023 – Jan 2024*

Accounts Receivable • Debtor Management • Cross-functional Reporting

- Managed accounts receivable and debtor-related operations; maintained and updated debtor and customer payment records.
- Monitored overdue payments and payment schedules; conducted debtor trend analysis and payment-behaviour analysis.
- Prepared monthly financial and operational reports and presented analytical reports to regional / head-office management in Hong Kong.
- Used Excel extensively for reporting and financial analysis, working with Pivot Tables, VLOOKUP, formulas and reporting automation.
- Coordinated with marketing teams on customer follow-ups and settlements; participated in stakeholder discussions and operational review meetings.
- Improved cash-flow visibility through reporting and analysis; assisted in forecasting and financial monitoring activities.
- Identified payment trends and operational issues through data analysis, helping management make operational and recovery decisions.
- Created PowerPoint presentations for management reporting; improved reporting accuracy and efficiency through structured Excel workflows.
- Collaborated with cross-functional teams across finance and marketing; managed data organisation and reporting documentation.

KEY PROJECTS

Reservation & Customer Behavior Analysis Platform

Built operational analytics reports to analyse customer reservation patterns, booking trends and business performance metrics across different services and regions. Performed data cleaning, transformation and aggregation using SQL, Excel and Python to generate detailed management reports and visual dashboards. Identified operational patterns, seasonal trends and customer-behaviour insights that supported strategic planning and operational decision-making.

Tech: SQL, MySQL, Python, Pandas, Excel, Looker Studio

Automated KPI Reporting & Business Insights Framework

Created automated reporting workflows and KPI dashboards for management using SQL, Looker Studio and Excel, significantly reducing manual reporting effort and improving reporting accuracy. Designed dashboards to monitor business growth metrics, operational performance, marketing effectiveness and reservation analytics in real time. Worked closely with business stakeholders to translate reporting requirements into practical analytics solutions and data visualisations.

Tech: SQL, Looker Studio, Excel, Automation

Business & Marketing Analytics Dashboard

Designed and maintained a comprehensive business intelligence dashboard ecosystem using SQL, Looker Studio and Excel to monitor reservations, revenue performance, customer behaviour and operational KPIs. Extracted and transformed large datasets from MySQL databases, automated reporting workflows and generated actionable insights for management decision-making. Integrated Google Ads conversion tracking and marketing analytics to evaluate campaign ROI, keyword performance, CPA trends and customer-acquisition effectiveness helping optimise digital-marketing strategy and budget allocation.

Tech: SQL, MySQL, Looker Studio, Excel, Google Ads, Conversion Tracking

EDUCATION

BSc (Hons) in Information Technology — 2023 – 2026

Sri Lanka Institute of Information Technology (SLIIT)

G.C.E. Advanced Level — Commerce Stream (English Medium)

Ananda College, Colombo 10 | Accounting: A | Economics: A | Business Studies: B

CERTIFICATIONS

- **Google Professional Data Analytics Certificate**Google / Coursera
- **AI / ML Engineer**SLIIT
- **Power BI for Beginners**Simplilearn
- **Programming in Python**University of Moratuwa
- **Introduction to Data Science**Simplilearn
- **AAT Level 1, 2 & 3**Association of Accounting Technicians

LEADERSHIP & ACTIVITIES

- Assistant Secretary — Ananda College Entrepreneurs Club
- Chief Organiser — Ananda College LEO Club
- Active Member — Gavel Club of SLIIT (public speaking & communication)
- Active Member — Research & Exploration Society, Commerce Society — Ananda College

Languages: English (Professional) • Sinhala (Native)
