SOFT SKILLS

- Software Development Life Cycle (SDLC)
- Problem Solving & Analytical Thinking
- Version Control & Collaboration (Git)
- System Analysis & Design

TOOLS

- MYSQL / MongoDB Compass
- Visual Studio Code
- Apache Netbeans
- Figma
- Android Studio
- JMeter
- Git

Languages

English

Sinhala

PROFESSIONAL SUMMARY

Dedicated and adaptable Information Technology undergraduate with a strong academic foundation in software development, system design, and database management. Possesses hands-on project experience building full-stack applications, desktop software, and problem-solving solutions. Eager to apply solid programming capabilities, algorithmic thinking, and technical versatility to a Software Engineering Internship.

EDUCATION

- **Higher National Diploma in Information Technology (HNDIT)**– [Sri Lanka Institute of Advanced Technological Education] – [2024- 2027]
- **Certiificate Foundations of Project Management** [University of Moratuwa] – [2023-2024]
- **Certificate of Front-End Web Development** [University of Moratuwa] – [2024-2025]
- **Certificate Foundations of Python** [University of Moratuwa] – [2024-2025]
- **Certificate Foundations of Web Design for Beginners** [University of Moratuwa] – [2024-2025]
- **Certificate of Computer Network** [Advanced Institute of Technology and Management] – [2024-2025]

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, PHP, C#, SQL
- **Frameworks & Libraries:** Laravel, Flask, Django, Java Swing, Bootstrap, React
- **Web Technologies:** HTML5, CSS3, JavaScript
- **Database & Storage:** MySQL, MongoDB Compass

PROJECTS

AI-Powered Student Inquiry Classification & Learning Analytics System
(Python, Flask/Django, MySQL, NLP)

- Designed and implemented an intelligent system backend to parse and classify bilingual student inquiries using Python and NLP libraries (Scikit-learn, spaCy, NLTK, Transformers).
- Structured and managed optimized backend database architectures via MySQL and XAMPP for efficient logging and data processing.
- Developed dynamic and responsive user-facing components using HTML5, CSS3, and JavaScript/Bootstrap.

Fresh Slice 65 (Bakery Management System) (Java Swing, MySQL, NetBeans)

- Engineered a comprehensive desktop-based software solution using Java and Java Swing to streamline inventory control and sales processing operations.
- Implemented reliable database connectivity with MySQL, ensuring efficient CRUD operations and transactional integrity
