

THARINDU PERERA

Data Engineer | BSc (Hons) IT Undergraduate | Google Certified

+94 77 198 12 49 | thariduperera09@gmail.com | Ragama, Sri Lanka | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Motivated Data Engineer and final-year IT undergraduate at SLIIT (Year 4, Sem 2) with hands-on experience building data pipelines, designing ETL workflows, and managing structured and unstructured data at scale. Proficient in Python, SQL, MongoDB, and Azure with practical exposure to data ingestion from APIs and web sources, data modeling, and feeding clean datasets into analytical and BI systems. Holds Google Professional Data Analytics and AI/ML Engineering certifications. Eager to contribute to data infrastructure and pipeline engineering in a graduate role.

CORE COMPETENCIES

Data Pipeline Development	ETL / ELT Processes	SQL & Database Design	Python (Pandas, NumPy)
Data Modeling & Schemas	Data Cleaning & Validation	Cloud Platforms (Azure)	MongoDB & NoSQL
Power BI & DAX	API & Web Data Ingestion	Git & Version Control	Agile / Scrum

EDUCATION

BSc (Hons) in Information Technology 2023 – 2026 (Expected)
Sri Lanka Institute of Information Technology (SLIIT) | Year 4, Semester 2

G.C.E. Advanced Level - Technology Stream 2022
WP/KE Karunaratne Buddhist National College | Engineering Technology (C), Science for Tech (S), ICT (S)

G.C.E. Ordinary Level 2019
St. Anthony's College, Wattala

KEY PROJECTS

End-to-End Retail Customer Behavior Data Pipeline 2026
Python · SQL · MySQL · Pandas · NumPy · Power BI · GitHub

- Engineered a complete data pipeline ingesting 50,000+ raw retail records — handling extraction, transformation, cleaning, and loading into a structured MySQL database.
- Automated data validation checks for null values, duplicates, and type mismatches; ensured clean, analysis-ready datasets for downstream BI consumption.
- Modeled relational schemas for customer, transaction, and product entities; optimized SQL queries to reduce data retrieval time.
- Feeding clean datasets into Power BI for KPI dashboards tracking basket size, churn indicators, and revenue by customer segment.

Cricket T20 Analytics - Data Ingestion & Transformation 2025
Python · Pandas · Web Scraping · Bright Data · JSON · CSV · Power BI

- Built a web scraping pipeline using Bright Data proxies to ingest match and player statistics from ESPNcricinfo at scale.
- Transformed complex nested JSON structures into normalized, structured CSV datasets ready for statistical analysis and BI reporting.
- Implemented data quality checks and deduplication logic across 500+ player records before loading into the analytical layer.
- Delivered clean datasets powering a multi-page Power BI performance dashboard with advanced DAX measures.

HomeStock Inventory & Spend Management System 2025
MongoDB · Node.js · Express.js · Azure · React.js

- Designed and implemented NoSQL data models in MongoDB for real-time inventory tracking, automated alert logic, and spend analytics.

- Deployed data infrastructure to Microsoft Azure; configured cloud storage, environment variables, and API data flow between services.
- Built threshold-based data triggers for automated grocery list generation; ensured data consistency across inventory and budget modules.

Ayurvedic Hospital Management System - Data Layer

2023

MongoDB · Express.js · Node.js · Firebase

- Designed MongoDB collections and schemas for patient records, appointments, and billing; enforced data integrity through validation rules.
- Integrated Firebase for authentication and real-time data sync; managed API data flow between frontend and database layer.

TECHNICAL SKILLS

Languages	Python · SQL · Java · R · JavaScript
Data Engineering	ETL/ELT Pipelines · Data Modeling · Data Cleaning · Web Scraping · API Ingestion
Databases	MySQL · MongoDB · NoSQL Design · Relational Schema Design
Cloud & DevOps	Microsoft Azure · Firebase · Git · GitHub · CI/CD Fundamentals
Data Libraries	Pandas · NumPy · Scikit-learn · Matplotlib · Seaborn
BI & Analytics	Power BI (DAX, Data Modeling) · Tableau · Excel
Tools	Jupyter Notebook · Google Colab · VS Code · Postman · JIRA

CERTIFICATIONS

Google Professional Data Analytics Certificate	Google / Coursera
AI/ML Engineer Certification	SLIIT
Power BI for Beginners	Simplilearn
Introduction to Data Science	Simplilearn

SOFT SKILLS & LANGUAGES

Soft Skills:	Analytical Thinking · Attention to Detail · Problem Solving · Teamwork · Documentation · Communication
Languages:	Sinhala (Native) · English (Professional)
